INTRODUCTION

For any kind of updates, people would depend on media to be aware of what is going on around them. Public health is no exception. Despite the advent of electronic media, traditional newspaper media is still strong and legitimate enough to rely on, motivating us to look through it about impact and evolution of Covid-19 during the month of June 2020, when it took the spotlight in almost all newspapers at that time.

Fighting the Virus

What happens next with the COVID-19 pandemic?

- Comprehensive restriction for Malaysians travelling abroad

ment and offices

those involved in essential services to be closed

- Restricted entry for foreign visitors

Those returning from overseas to

14 Days

will be quarantined for

14 days

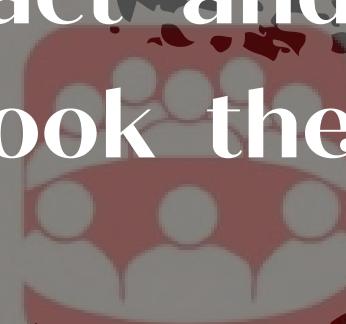

All shops except

businesses dealing with

essential items to be shut down

No social gatherings

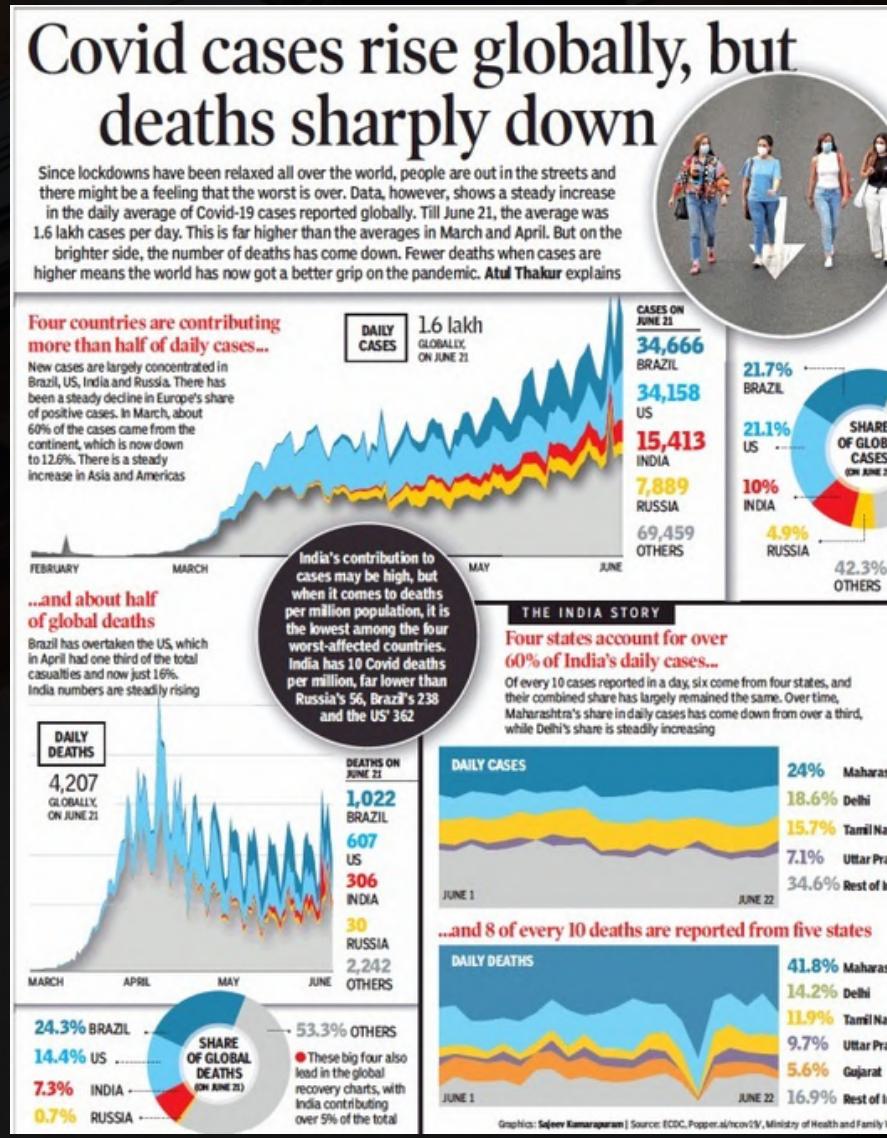

- Kindergartens, schools, colleges and universities to be closed

Case study

HEALTH AND POLITICAL SECTOR

MAJOR HEALTH RELATED HEADLINES

- LESS BEDS IN COMPARISON TO CASES**
- RUSH ONLY FOR SOME HOSPITALS, CONCERNS OVER LACK OF HYGIENE, STAFF SHORTAGE. 4360 BEDS IN 6 DELHI GOVT HOSPITALS.
- 460 PEOPLE DIED OF COVID 19 WHEN THE REPORTED VALUE WAS 224. THE FATALITY REPORT IS CLOSE TO 1.5 % RATHER THAN 0.7%
- WRONG STATISTICAL ANALYSIS**
- NUMBER OF BEDS AVAILABLE IN 22 (PRIVATE) HOSPITALS TO RISE AROUND 3456, (INCLUDING APOLLO, MAX, BLK, FORTIS). THIS WILL AID IN GETTING RELIEF TO COVID PATIENTS WITH SEVERE SYMPTOMS.
- 40 TOTAL LABORATORIES IN DELHI, WHEN 15 WERE SURVEYED, 6 WERE UNRESPONSIVE (OR NOT TAKING TEST SAMPLES) AND 3 SAID TESTING WOULD RESUME AFTER 48 HOURS DUE TO BACKLOG.

DIVING DEEP INTO HEALTH AREAS:

AROUND THE FIRST WEEK OF JUNE, 2020

1) NOD TO PLASMA THERAPY PH-III

• AFTER ENCOURAGING RESULTS FROM PHASE 2 OF PLASMA THERAPY TRIALS, CENTRE APPROVED FOR 3RD ROUND OF PLASMA THERAPY TRIALS, CONDUCTED BY DELHI GOVERNMENT.

2) DELHI CORONA APP FOR CHECKING THE REAL TIME AVAILABILITY OF COVID BEDS

TOP HEADLINES:

DELHI HIGH COURT ON JUNE 12 REFUSED TO PASS ANY DIRECTION TO DELHI GOVT TO ENSURE NO PRIVATE HOSPITAL WHICH HAS BEEN DECLARED AS COVID-19 HOSPITAL, CHARGES THE PATIENTS EXORBITANTLY OR DENY TREATMENT DUE TO PAUCITY OF FUNDS.

ABOUT THE INCREASING CASES V/S DEATH CASES, NEGLIGENCE OF HOSPITALS

- ON JUNE 12TH, THE TALLY OF NEW CASES TOPPED 11,000 AND DEATH TOLL INCREASES CREW BY 389 TO 8,866 PUTTING INDIA IN THE THIRD PLACE IN THE LIST OF COUNTRIES HAVING HIGHEST DAILY CASE LOADS AFTER BRAZIL AND US.
- **THE INSIDE STORIES AND CORRUPTION**
- A 30 YEAR OLD PREGNANT WOMAN, WHO WAS 8 MONTHS PREGNANT, SHE WAS TURNED DOWN BY 8 HOSPITALS CAUSE SHE SHOWED COVID-19 SYMPTOMS. THE PRIVATE HOSPITALS GAVE THE EXCUSE OF "LACK OF BEDS" TO DENY THE PREGNANT WOMAN A BED.
- A 24-YEAR-OLD WOMAN DIED ON JUNE 11, TWO DAYS AFTER GIVING BIRTH TO THE BABIES AS FOUR HOSPITALS TURNED HER AWAY SUSPECTING HER TO BE A COVID-19 POSITIVE. THE TWINS ALSO DIED SOON AFTER BEING BORN.
- THE NATIONAL COMMISSION FOR WOMEN, REQUESTED THE MINISTRY TO NON COVID-19 AMBULANCE SERVICES, ALLOCATION FOR SEPERATE BEDS FOR WOMEN AND A DEDICATED HELPLINE NUMBER TO SAFEGUARD HEALTH OF WOMEN AND BABIES.
- DELHI RESIDENT BEING EARMARKED OF RS.4.08 LAKH AND RS. 70,900 FOR JUST PPE KITS. ALLEGED FOR 22 VISITS AGAINST 7 VISITS. KOLKATA HAS THE HIGHEST CLAIM SIZE FOLLOWED BY DELHI.
- PEOPLE IN THE GOVERNMENT ESCAPING THE ENFORCEMENT DIRECTORATE, ON A GAMBLE OF RS 5000 CRORE AND UNWILLING TO BE INTERROGATED AS THEY ARE ABOVE THE AGE OF 65, AND MIGHT BE SUSCEPTIBLE TO COVID DUE TO OLD AGE.

THE WAY THE GOVERNMENT REACTED AND NEW SCHEMES THAT WERE IMPLEMENTED

1. DELHI GOVERNMENT MADE A DETAILED PLAN TO ADD OVER 25,000 BEDS.
2. AUTHORITIES PLANNED TO INCREASE DAILY TESTING CAPACITY .
3. DELHI GOVERNMENT'S SOCIAL WELFARE DEPARTMENT ASKED ITS OFFICIALS TO AVOID FACE TO FACE MEETINGS TO THE EXTENT POSSIBLE.
4. THE HEALTH MINISTRY DEPLOYED HIGH-LEVEL MULTI-DISCIPLINARY TEAMS IN 15 STATES AND UT, EACH OF THESE TEAMS COMPRISE OF 3 MEMBERS , 2 PUBLIC HEALTH EXPERTS, EPIDEMIOLOGISTS AND SENIOR JOINT SECRETARY LEVEL NODAL OFFICER FOR MANAGING THE ADMINISTRATIVE FRONT.

THE SC AND THE GOVERNMENT

1. SC TORE INTO THE DELHI GOVT FOR THE PATHETIC CONDITION OF GOVT HOSPITALS, IMPROPER TREATMENT OF COVID-19 PATIENTS AND UNDIGNIFIED HANDLING OF DEAD BODIES.
2. AFTER COMPLAINTS FROM DOCTORS ABOUT LACK OF QUARANTINE FACILITIES AND NON-PAYMENT OF SALARIES, THE SUPREME COURT SAID THAT DO NOT DISSATISFY OUR SOLDIERS OF COVID WAR AND TRAVEL THE EXTRA MILE TO MAKE THEM FEEL SECURE.
3. BJP REACTED TO THE SUPREME COURT OBSERVATIONS ON DELHI GOVT HANDLING OF THE COVID-19 PANDEMIC AND SAID THAT THE KEJRIWAL GOVT SHOLD LEAVE POLITICS AND PUBLICITY AND WORK ON THE GROUND.
4. DELHI HIGH COURT ON JUNE 12 REFUSED TO PASS ANY DIRECTION TO DELHI GOVT TO ENSURE NO PRIVATE HOSPITAL WHICH HAS BEEN DECLARED AS COVID-19 HOSPITAL, CHARGES THE PATIENTS EXORBITANTLY OR DENY TREATMENT DUE TO PAUCITY OF FUNDS.

LET'S TALK ABOUT BUSINESS!

ECONOMIC IMPACT:

.TECH MAHINDRA SAID THAT THE CORONAVIRUS WILL BRING DOWN THE INDIAN IT INDUSTRY AS INTERNATIONAL ORDERS WILL SLOW DOWN AMID THE PANDEMIC. THE CRISIS IS "MUCH WORSE FROM AN ECONOMIC IM- PACT" POINT OF VIEW COMPARED TO WHAT THE INDUSTRY HAD SUFFERED DURING THE GLOBAL FINANCE MELTDOWN OF 2008-2009.

2. INDIA'S ECO TO CONTRACT 3.2% IN FY21, SAYS WORLD BANK : THE INDIAN ECONOMY IS ESTIMATED TO CONTRACT BY 3.2% IN 2020-21 AS STRINGENT MEASURES TO CONTROL THE SPREAD OF THE VIRUS WILL HEAVILY CURTAIL ACTIVITY, DESPITE SOME SUPPORT FROM FISCAL AND MONETARY STIMULUS.

START-UP

COVID 19 HAS SHRUNK INVESTMENT APPETITE FOR STARTUPS GLOBALLY IN 2020, US BASED FIRMS HAVE FALLEN BACK, PAYTM IS IN TOP 10 AND CHINESE START-UPS HAVE OUTNUMBERED THE COMPETITION. 3714 UNITS AGAINST 151188 UNITS IN THE SAME MONTH LAST YEAR. HERO MOTO Q4 NET DIPS 15% ON LOW SALES. SEVERAL PROMOTERS COME UP WITH OFFERS, DELISTING PLANS TO STRENGTHEN CONTROL IN COS, 15 BUYBACK OFFERS SINCE LOCKDOWN 1.0.

HOTELS

.OPENING OF DOMESTIC FLIGHTS IN THE COUNTRY AND MALLS AND HOTELS IN HARYANA, IT STATED THAT HOTELS SHOULD BE OPENED SOON. AVIATIONS, TRANSPORT AND LODGING COMPLETE THE TOURISM INDUSTRY AND ONE SECTOR CANNOT WORK WITH OTHERS AS SHUT.

RESTAURANTS

- USUAL FLOW OF VISITORS IS MISSING, AS IT WAS A HOTSPOT BEFORE COVID. PEOPLE DON'T BUY, THEY BUY FASHIONABLE MASKS INSTEAD, SO CINEMA HALLS AND RESTAURANTS NEED TO BE OPENED TO ATTRACT CROWD.
- A POPULAR RESTAURANT HAD SEATING CAPACITY OF 48 PEOPLE, BUT ONLY 50% WAS ALLOWED AFTER COVID AND AS SOON AS THE HOTEL WAS OPENED, 38 PEOPLE WERE FOUND CELEBRATING A BIRTHDAY PARTY. THEY WERE ALSO ARRESTED FOR INTAKING HOOKAH.

INSURANCE

- NO INSURANCE COMPANY WANTED TO COVER THE COVID WARRIOR, AROUND 150 DOCTORS HAD EVEN SIGNED THEIR POLICY DOCUMENT WHEN THE COMPANY OPTED OUT OF THE DEAL. AROUND 3000 MEMBERS WANTED TO OPT FOR FIXED BENEFIT COVER UNDER IMA.

SOCIAL IMPACT

FOOD

1. PANDEMIC HAS CAUSED FOOD AND NUTRITION SHORTAGES, CIVIL SOCIETY ORGANISATIONS CAN PLAY A ROLE IN SOLUTIONS AT A LOCAL LEVEL.

SCHOOL

1. NORMAL SCHOOL ROUTINE HAS REMAINED DISRUPTED DUE TO THE PANDEMIC AND IS UNLIKELY TO ANYTIME SO, BUT PARENTS REMAIN DIVIDED ON THE ISSUE ONLINE CLASSES ACCORDING TO A SURVEY CONDUCTED ACROSS DISTRICTS, 64% OF PARENTS ARE IN FAVOUR OF ONLINE CLASSES IN SCHOOLS AS AGAINST 31% WANTING A BAN ON THEM.

2. THERMAL SCREENING AND SANITIZERS AT ENTERANCES , NO LARGE GATHERING AT SCHOOLS.

JOBLESSNESS

1. FIRST THREE WEEKS OF JUNE SAW THE UNEMPLOYMENT RATE DROPPING FROM 17.5% TO 11.6%, AND NOW 8.5%

2. RURAL JOBLESSNESS RATE DROPPED TO 7.3%, LOWER THAN IT WAS IN THE PRE-Lockdown

3. PERSON-DAYS OF JOBS CREATED VIA MGNREGA IN MAY 2020 SHOT UP TO 565 MILLION, 53% HIGHER THAN THE 370 MILLION PERSON-DAYS UNDER THE SCHEME IN MAY 2019.

4. RURAL JOBLESSNESS RATE DROPPED TO 7.3%, LOWER THAN IT WAS IN THE PRE-Lockdown.

5. URBAN JOBLESSNESS RATE AT 11.2%.

MORE ABOUT JOBLESSNESS:

- IN JUNE MONTH, 2020
- THE NATIONAL CAPITAL TERRITORY OF DELHI, MAHARASHTRA AND TAMIL NADU ANNOUNCED ON JUNE 12 THAT THERE WOULD BE NO REIMPOSITION OF LOCKDOWN DUE TO UNABATING GROWTH OF COVID-19 CASES.
- HEALTH MINISTRY HAS DROPPED THE 14-DAY HOME QUARANTINE REQUIREMENT FOR CREW OF A FLIGHT ON WHICH A PASSENGER OR FELLOW CREW MEMBER TESTS CORONA POSITIVE.
- AFTER GETTING OFFER OF HIGHER WAGES, MIGRANTS TRAVEL TO ANOTHER STATE WITHIN DAYS OF RETURNING HOME FOR BETTER EDUCATION FOR THEIR CHILDREN.
- CENTRE HAS UNVEILED A Rs 50K CRORE PLAN TO PROVIDE JOBS TO RETURNING MIGRANTS ACROSS 116 DISTRICTS IN SIX STATES, PM MODI WILL LAUNCH THIS PROGRAM UNDER GARIB KALYAN YOJNA ON 20TH JUNE VIA VIDEOCONFERENCE FROM A VILLAGE IN POLL BOUND BIHAR.

CHILD MARRIAGE

AT LEAST TWO CHILD MARRIAGES HAVE REPORTEDLY TAKEN PLACE WHILE ANOTHER THREE HAVE BEEN STOPPED BY OFFICIALS DURING THE LOCKDOWN PERIOD. MOST ALERTS ON CHILD MARRIAGES USUALLY COMES FROM SCHOOLS, HOWEVER WITH SCHOOLS SHUT DOWN AS A RESULT OF LOCKDOWN, SEVERAL CHILDREN HAVE BECOME PREY TO THIS PRACTICE.

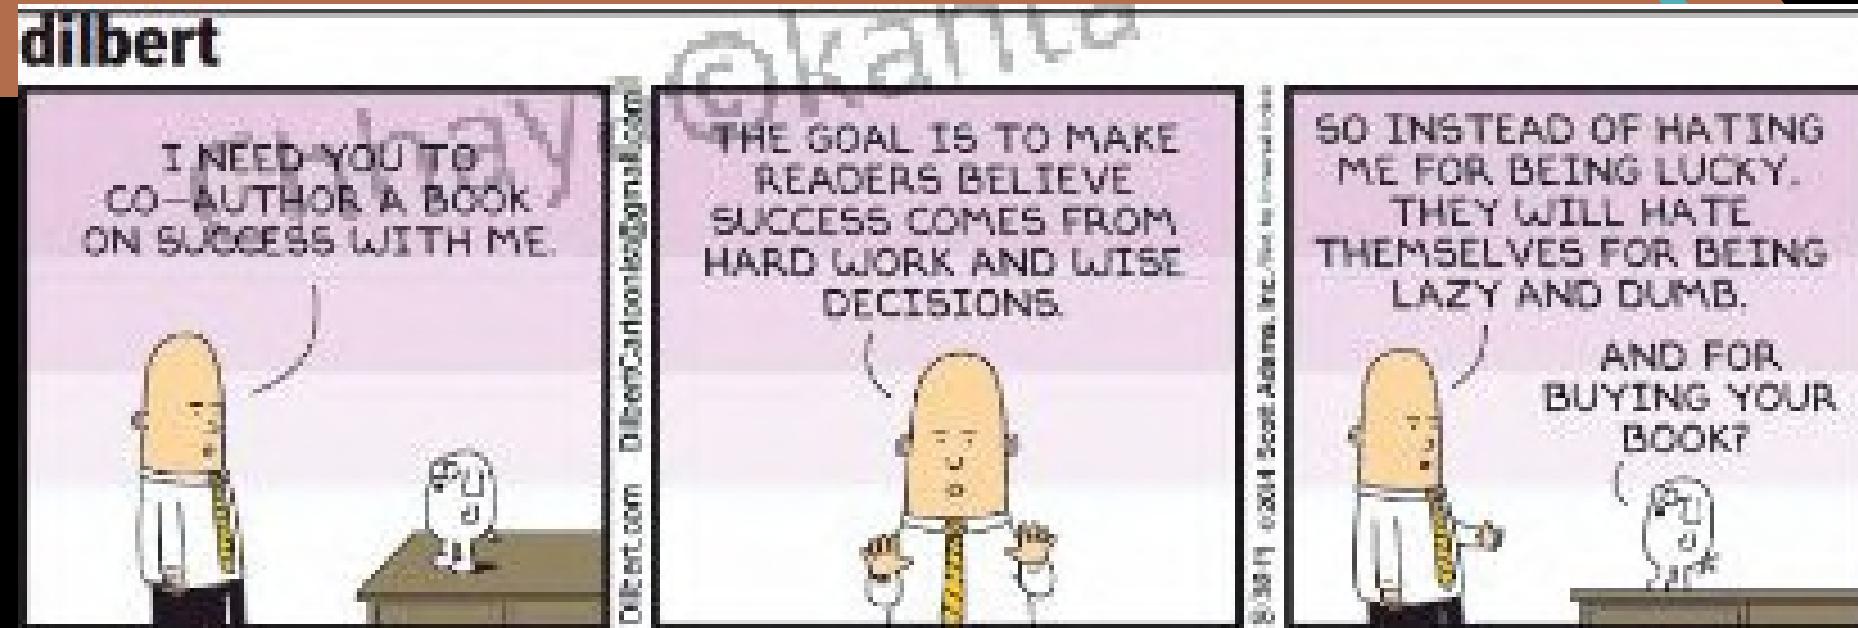

SOCIAL IMPACT:(THE SPEAKING TREE) TALKS

AFTER LOCKDOWN, WE CAN CONCLUDE THAT THERE ARE THREE TYPES OF CONNECTIONS:

1> PHYSICAL:(THE STRONGEST BOND)

2> MENTAL:(UNDERSTOOD THIS ALL THANKS TO SOCIAL DISTANCING)(BUT TECH HELPED US IN THIS AGONY)

3> SELF:THE MOST IMPORTANT ONE THAT WE DISCOVERED DURING THE LOCKDOWN WAS CONNECTION TO SELF. IT BEING THE MOST IMPORTANT CONNECTION OF ALL, IN THE PRESENCE OF WHICH ABOVE 2 CAN BE LEFT. THE LOCKDOWN HELPED US INTROSPECT.

Isolation, Social Distancing And Connections

OS Tripathi

We are connected to everything by some means or other. Society, friendship and love result from connections. Connections are of three types: physical, mental and Self-connection. Physical, visible connection is the 'real' and strong connection. It results from physical closeness. In physical connection the bond is very strong. However it has both attractive and repulsive sides. If the connection is based on love, compassion, kindness and understanding or similar positive traits, the connection becomes strong. It implies some kind of order. However, any kind of order, by nature, is fragile. There is always a fear that the order might be lost. Sometimes a slight misunderstanding can disturb the order.

If loved ones are far away, there is a mental connection. We always think about them. Mental connection arises

due to physical isolation. Various social factors contribute to this physical isolation as in social distancing. When children grow, they distance themselves from parents due to higher studies, jobs, marriage, career and ambition. Despite physical separation, there is always a mental connection.

Advances in technology reduce the anxieties of a mental connection. We can now connect with our loved ones by various means of communication, and it is instantaneous. In a true sense, we are never isolated. Even in social distancing and physical isolation, there is effective connection made possible by technology.

In the present crisis due to the Covid-19 pandemic, social distancing is advised. Despite the distance, we are connected via technology – education, business, financial deals, banking,

medicine, and of course, family and friends. In today's world, isolation is virtually impossible.

Earlier social functions were parts of our entertainment and well-being. Now, we entertain ourselves at home. Technology has facilitated this aspect tremendously.

Beyond these mundane connections is another, higher one that is spiritual. It is connection to the Self.

Self-connection is possible in total isolation, in solitude, far from the madding crowd. Once this

connection is achieved, all other connections become meaningless. With this kind of connection, a person becomes divine. It is connected to Self-knowledge. Throughout the Bhagavad Gita, one finds references to this.

Self-knowledge, Self-connection. The Gita talks about both the material

THE SPEAKING TREE

world and the spirit, the soul. It also shows the way, how one can be close to the spiritual world, even in a material environment. The ways are: Action without any desire for fruits, steadfastness in prescribed duties and abiding to goodness in all aspects of life. The latter aspect is called the satvik state. Other traits are: constant yearning for knowledge, faith on and realisation of an infinite invisible power that is continuous and discrete, larger than the largest and smaller than the smallest and the eternity of the beginning and end.

In physics, self-energy of a particle describes its interaction with the environment. Similarly, in real life, too, everybody possesses self-energy, as a result of his spiritual and material connections. Just as self-energy in physics describes the mass and energy of a particle, self-energy in humans describes strength and flexibility. (The writer teaches physics at Berhampur University)

Sacred space

It's Paradise

A lover of what is, looks forward to everything: life, death, disease, loss, earthquakes, bombs, anything the mind might be tempted to call 'bad'. Life will bring us everything we need, to show us what we haven't availed yet. Nothing outside ourselves can make us suffer. Except for our unquestioned thoughts, every place is paradise.

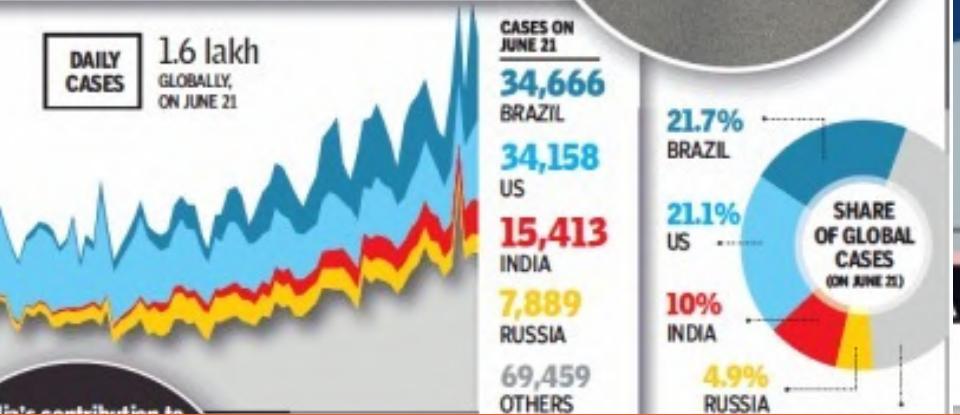

Byron Katie

Covid cases rise globally, but deaths sharply down

Since lockdowns have been relaxed all over the world, people are out in the streets and there might be a feeling that the worst is over. Data, however, shows a steady increase in the daily average of Covid-19 cases reported globally. Till June 21, the average was 1.6 lakh cases per day. This is far higher than the averages in March and April. But on the brighter side, the number of deaths has come down. Fewer deaths when cases are higher means the world has now got a better grip on the pandemic. Atul Thakur explains

Four countries are contributing more than half of daily cases...

New cases are largely concentrated in Brazil, US, India and Russia. There has been a steady decline in Europe's share of positive cases. In March, about 60% of the cases came from the continent, which is now down to 12.6%. There is a steady increase in Asia and Americas

SOCIAL DISTANCING? FINE, BUT HOW FAR IS SAFE?

Britain recently changed social distancing rules, reducing the recommended gap from 2 metres to 1. The US, however, has a 1.8 m rule while several other countries stick to one metre. So what's the right distance?

13% is your risk of being infected at one metre, according to a study in The Lancet

3% is what it drops to, with the risk halving by each extra metre up to three metres

Who discovered social distancing?

The social distancing standards can be traced back to research in the 1930s. William F Wells, who studied infectious diseases like tuberculosis at Harvard University, found that most droplets sprayed from the mouth tend to fall to the ground after 1.5 to 2 metres. Research into the influenza virus, which also spreads via droplets from the nose or mouth, has yielded similar results.

What do scientists say?

Infectious disease experts say the logic is simple. The further you are, the fewer droplets you will be exposed to. "One metre only prevents you from being exposed to the largest of droplets. Reducing that to 1.8 m reduces your exposure – but doesn't make it safe," said Jonathan Reid, a professor of Physical Chemistry at Britain's Bristol University

FEELING THE PINCH

CSR funding is likely to drop by 30-60% in next two years

Philanthropists, corporates are likely to set aside their spends for Covid response amid economic distress

Many philanthropists may not make new bets this year, according to Bridgespan study

Non-Covid project funding will reduce by 30-50%, says philanthropist Vineet Nayar

Social Sector funding hit economy woes
Call it the Covid-19 effect. Philanthropic or social sector funding has taken a huge blow with several non profits even facing an existential crises, with all funding activities currently revolving around fighting the pandemic.

HOW HOME ISOLATION WORKS

1 A team of healthcare workers from the district surveillance office will visit your home. They will examine your health parameters and decide whether you can be home-quarantined or need to be admitted to hospital

2 You will receive a home-isolation training call, informing you about the best practices to follow. You will receive daily calls to monitor your health

3 You can end home quarantine after 17 days from the onset of symptoms, if you don't have fever or any other symptom in the last 10 days of the isolation period. There is no need for testing once home quarantine is over

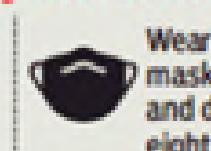

INSTRUCTIONS FOR HOME QUARANTINE PATIENTS

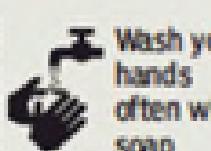

Keep a separate room and bathroom

Download Aarogya Setu app

Wear a triple-layered mask at all times and discard it after eight hours of use

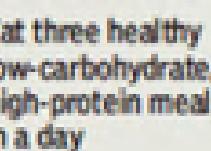

Wash your hands often with soap

Take plenty of rest and fluids

Eat three healthy low-carbohydrate, high-protein meals in a day

Do not share personal items with other family members

22ND JUNE, 2020

HEALTH IMPACT

15,000+ new cases, death count over 400
India registered its biggest single-day spike yet again on Sunday with 15,372 patients testing positive for Covid-19, taking the country's caseload to 426,397. For the first time the country's daily fatality count crossed 400 mark.

CANCER TREATMENT DOWN 64%

► While cancer treatment under Ayushman scheme fell

Hospitalizations under Ayushman scheme drop 51% due to lockdown. Utilization of inpatient servers were severely affected in both public and private hospitals during the Covid-19 lockdown with a 51% drop in average weekly hospitalization under world's largest health insurance scheme Ayushman Bharat.

ITC bets on immunity products amid Covid ITC is piloting farm projects with medicinal and aromatic plants, and beefing up its horticulture portfolio, as the cigarettes to biscuits conglomerate expects demand to rise for immunity boosting products and packaged fresh and frozen fruits and vegetables due to Covid-19.

SOCIAL IMPACT

Battle-weary OGH medicos boycott duties over workload
Health Services at the state-run Osmania general hospital (OGH) was hit on Sunday after a large section of junior Doctors at the forefront of the coronavirus fightback boycotted duties over poor strength at the Covid-19 wards leading to burnout.

As India works from home, rise in demands of study tables and chairs.

furniture companies from Pepperfry and Godrej Interio to Transteel and featherlite, are witnessing unprecedented demand for study tables and chairs as companies continue to encourage their employees to work from home because of pandemic.

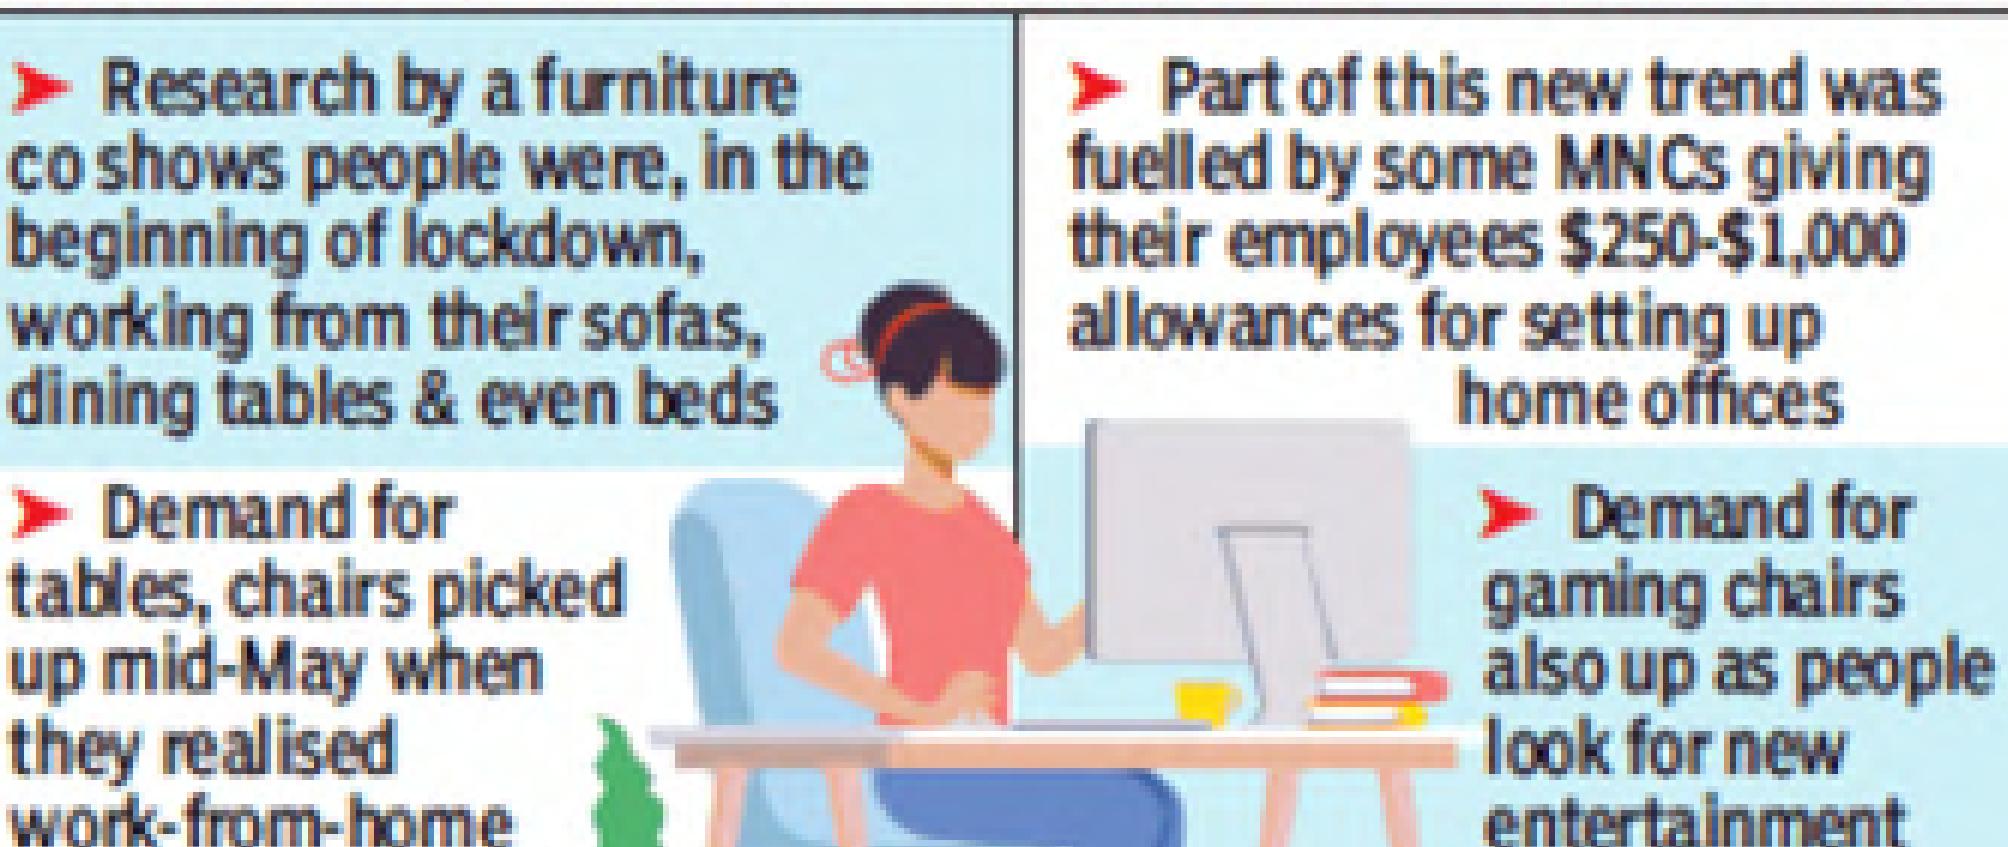

PEOPLE BUYING GAMING CHAIRS TOO

► Research by a furniture co shows people were, in the beginning of lockdown, working from their sofas, dining tables & even beds

► Demand for tables, chairs picked up mid-May when they realised work-from-home

► Part of this new trend was fuelled by some MNCs giving their employees \$250-\$1,000 allowances for setting up home offices

► Demand for gaming chairs also up as people look for new entertainment

THANK YOU

India has worst case fatality ratio in new Covid epicentre of S Asia

Atul Thakur & Rema Nagarajan

South Asia has emerged as one of two regions, the other being South America, in which the Covid pandemic is growing fastest, making them the new epicentres. Both within South Asia and within countries on the top 20 global lists of cases and deaths, India is among those in which the disease is gaining ground most rapidly.

Among the countries that
